WHAT IS A VT POSTFORMED COUNTERTOP?

Postformed countertops are prefabricated countertops formed as a single piece from the backsplash to the front edge. Laminate is "wrapped" around the core material – from the curved backsplash to the cove, and then over the front edge – to provide a seamless surface.

WHY CHOOSE A VT POSTFORMED COUNTERTOP?

- Easy maintenance with no polishing or sealing needed.
- No seams to collect dirt and grime.
- Easy installation.
- Available with and without backsplash for further customization.

SPACE FOR MORE THAN JUST LIVING.

- Enhance your design with the look and feel of granite, stone or solid surface countertops.
- Endless design possibilities with laminates from major manufacturers.
- Available as an environmentally friendly EQcountertop to keep the earth beautiful, too.
